General comments

Question 1: Do you have comments on the overall draft of the SEEA Ecosystem Accounting?

This version reflects great improvement from the March 2020 version that I provided comments on. Great work to the entire team who considered all our comments and produced this revised and improved version.

Question 5. Do you have comments on Chapters 8-11 of the draft SEEA Ecosystem Accounting?

I specifically read "SECTION E" of the report, which is my area of expertise and research as forest economist and policy analyst; overall, well-written section and great improvement from earlier Draft in March.

More specific, Section 8.2.1 Defining exchange values for ecosystem accounting: This section has been well-written to clarify difference between exchange values and monetary values. This is critical when integrating ecosystem services into SNA for policy analysis - which is my area of research interest.

Question 6. Do you have comments on Chapters 12-14 of the draft SEEA Ecosystem Accounting?
