**Question 1: Do you have any comments on the proposed structure of the Classification of Environmental Functions?**

We appreciate that it has been taken into account that the time series that have been built up in Europe over the last decade need to be maintained, but how will it be possible to continue the time series for research and development for environmental protection and other activities for environmental protection, i.e. CEPA 8 and CEPA 9?

Additionally, division 6 (5 groups) is a little bit out of proportion to the others divisions (2-3 groups).

**Question 2. Do you have any comments on the explanatory notes and on the heading reference?**

No

**Question 3. Do you have any other comments on the Classification of Environmental Functions?**

No
