In case you have any questions or have issues with accessing the documents, please contact us at seea@un.org

Question 1: Do you have any comments on the proposed structure of the Classification of Environmental Functions?

The proposed classification structure of Environmental functions is good. It has objectively take into consideration environmental statistics indicators.

Question 2. Do you have any comments on the explanatory notes and on the heading reference?

The explanatory notes is oky. The explanations are just so clear. Every component in the classification is well explained.

Question 3. Do you have any other comments on the Classification of Environmental Functions?

The classification of Environmental Functions is also oky. The one interesting point is that indicators of the same category are rightly allocated.
