UNCEEA Work programme in context of NCA & SDGs

Gerard J . Eding

Director of National Accounts Statistics Netherlands

22 November 2017

United Nations

United Nations Committee of Experts on Environmental Economic Accounting

UNCEEA is an intergovernmental body

- consisting of countries and international organizations
- that is responsible to mainstream the SEEA in national statistical systems.
- Bert Kroese of Statistics Netherlands is the Chair
- UNSD is the Secretariat to the UNCEEA

UNCEEA and its Bureau are assisted by and cooperate with a number of groups, e.g. technical committees, London Group on Environmental Economic Accounting, Forum of Experts on the SEEA Experimental Ecosystem Accounting.

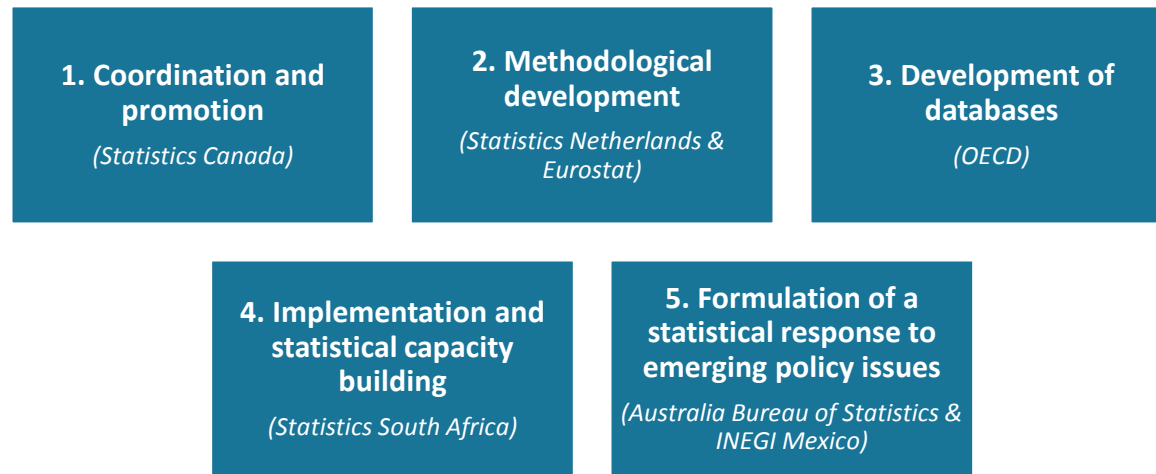

SEEA

UNCEEA Work Programme

- The UNCEEA is the umbrella body for coordinating efforts in environmental-economic accounting
- A **Work Programme 2017-2020** was developed by the Bureau of the UNCEEA and takes a **5-pronged approach** to global implementation
- For each area of work, different **area leads** are responsible for;
 - a) acting as a champion and providing leadership,
 - b) developing more detailed work plans and strategies,
 - c) coordinating with other members of the UNCEEA

UNCEEA Work Programme

Experimental Ecosystem Accounting integral part of Work Programme, e.g. methodology and update guidelines/handbook

SEEA and the SDG indicators

A group chaired by INEGI is being established to develop a strategy and work stream to mainstream SEEA in the SDG process, both at the level of implementation at the country level as well as through custodian agencies.

Role of standards

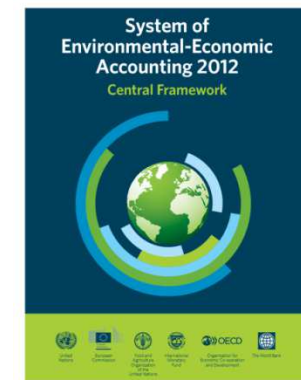

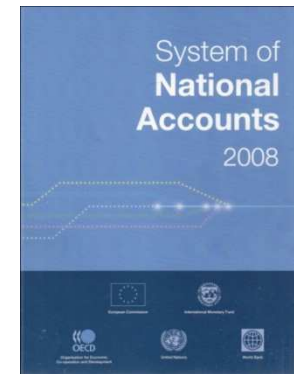

Indicators based on Standards

- Higher quality
- International comparability
- Comprehensive basis for (dis)aggregation

Statistical Standards

- Aligned Definitions and Classifications
- Improved capacity to compare and/or combine statistics from different sectors
- Basis for coherent and comprehensive data sets

Frameworks to coherently integrate information:

System of
Environmental
Economic
Accounting
