• List of ecosystem services relevant

Object of measure

# **Ecosystems services**

- Biodiversity
- Carbon
- Soil
- Water
- Timber
- Foods supply

# **Techniques**

- Hedonic pricing
- Replacement cost
- Damage cost avoided
- Restoration cost
- Travel cost
- Marginal values

# **Conclusions**

- Few relevant ecosystem services
- Enough information at national scale
- Consistent statistical and geographical information
- Sharing mechanisms
- Public information

# Thank you!

Georgina Alcantar López
