- IMPACT MANAGEMENT PROJECT: facilitating a structured network of standard-setting organisations to coordinate efforts with a shared vision of getting to global consensus

International Approach
- International Sustainability Standards Board (ISSB)

Regional Approaches
- EFPRG
- Corporate Sustainability Reporting Directive

Capitals Checker
- Step approach towards auditing robustness and maturity of a capitals assessment

* This is neither complete nor comprehensive and the landscape is continually evolving
The Valuing Accounting Network

The purpose of the Value Accounting Network is to advance the role of value accounting in decision-making, governance, and disclosure. To achieve this the members of the Value Accounting Network, collaborate and build consistency in what value accounting is, and how it is applied.
Standardization of Nat Cap Accounting
