PROCESS AND STRUCTURE OF THE FORUM OF EXPERTS

Carl Obst

Editor - SEEA Ecosystem Accounting, UNSD Consultant

United Nations

WELCOME

Aims of the Forum

- **Advance research agenda of the SEEA Experimental Ecosystem Accounting to support revision process**
 - > Conceptual and technical focus across four primary research areas
- **Share experience, best practice and technical advances**
 - > Data and tools, ecosystem accounting experiences
- **Identify priority areas for research and testing**
- **Broaden and build the SEEA network**

Broad structure of the sessions

- **Five Breakout sessions**

- > #1, #3 and #5 grouped by four research areas
- > #2 grouped by five ecosystem types
- > #4 grouped by five ecosystem accounting questions/topics

- **Data and tools sessions**

- **Ecosystem accounting experiences**

- **Other topics**

Day by day

Breakouts Data & tools Experiences Other

What are we looking for?

We want to take the best of your knowledge and blend to create a meaningful and coherent measurement framework

- > Statistical and accounting starting point - SEEA EEA (2014) and Technical Recommendations (December 2017)

Recognise perfection will be very challenging – aim for excellent

Put the issues/questions/concerns on the table

- > Seek to identify underlying assumptions and basic principles in each area of expertise
- > Look for connections and alternative ways of joining things together

ENJOY

THANK YOU
