The current objectives of the London Group

- support the further methodological development of the SEEA-CF;
- support the promotion and implementation of SEEA-CF;
- contribute to the further development of SEEA and the Experimental Ecosystem Accounting (SEEA-EEA);
- provide a forum for the sharing of national and international expertise and experience.

Long-term goals

To assist by, some examples:

- That the SEEA CF is globally harmonised and compiled with high quality
- That the SEEA EEA is continuing on the path of global harmonisation
- Implementation and use of data continues to expand

The scope of the workplan 2016-2018

- **Methodological research**
- **Implementation advice and best practices for SEEA**
- **Development and sharing of uses, applications, and extensions of the environmental-economic accounts**
