

ASSESSING THE LINKAGES BETWEEN GLOBAL INDICATORS, THE SEEA & THE SDGS

Steven King (steven.king@unep-wcmc.org)

18/02/2019

Objectives

Work package under the NCA and ES Valuation Project*

- Which global and national indicators can be directly integrated into the SEEA to support reporting on progress towards SDG Targets?
- Which global and national indicators have the potential to be generated using accounting modules within the SEEA framework?
- What are the gaps in current indicator initiatives that could be filled using the SEEA and existing global (and national) data?
- Which global and national indicators supported by the SEEA and relevant to SDG Targets should be considered priorities for testing?

[*https://seea.un.org/home/Natural%20Capital%20Accounting](https://seea.un.org/home/Natural%20Capital%20Accounting)

Global Indicator Initiatives

- Inter-Agency Expert Group on SDG Indicators (IAEG-SDG)
- United Nations Convention on Biological Diversity (UNCBD) Aichi Target Indicators
- United Nations Convention to Combat Desertification (UNCCD) Indicators
- United Nations Framework Convention on Climate Change (UNFCCC) Indicators
- Biodiversity Indicator Partnership (BIP) Indicators
- Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) Indicators
- Sendai Framework for Disaster Risk Reduction (Sendai) indicators
- Ramsar Convention on wetlands (Ramsar) Indicators

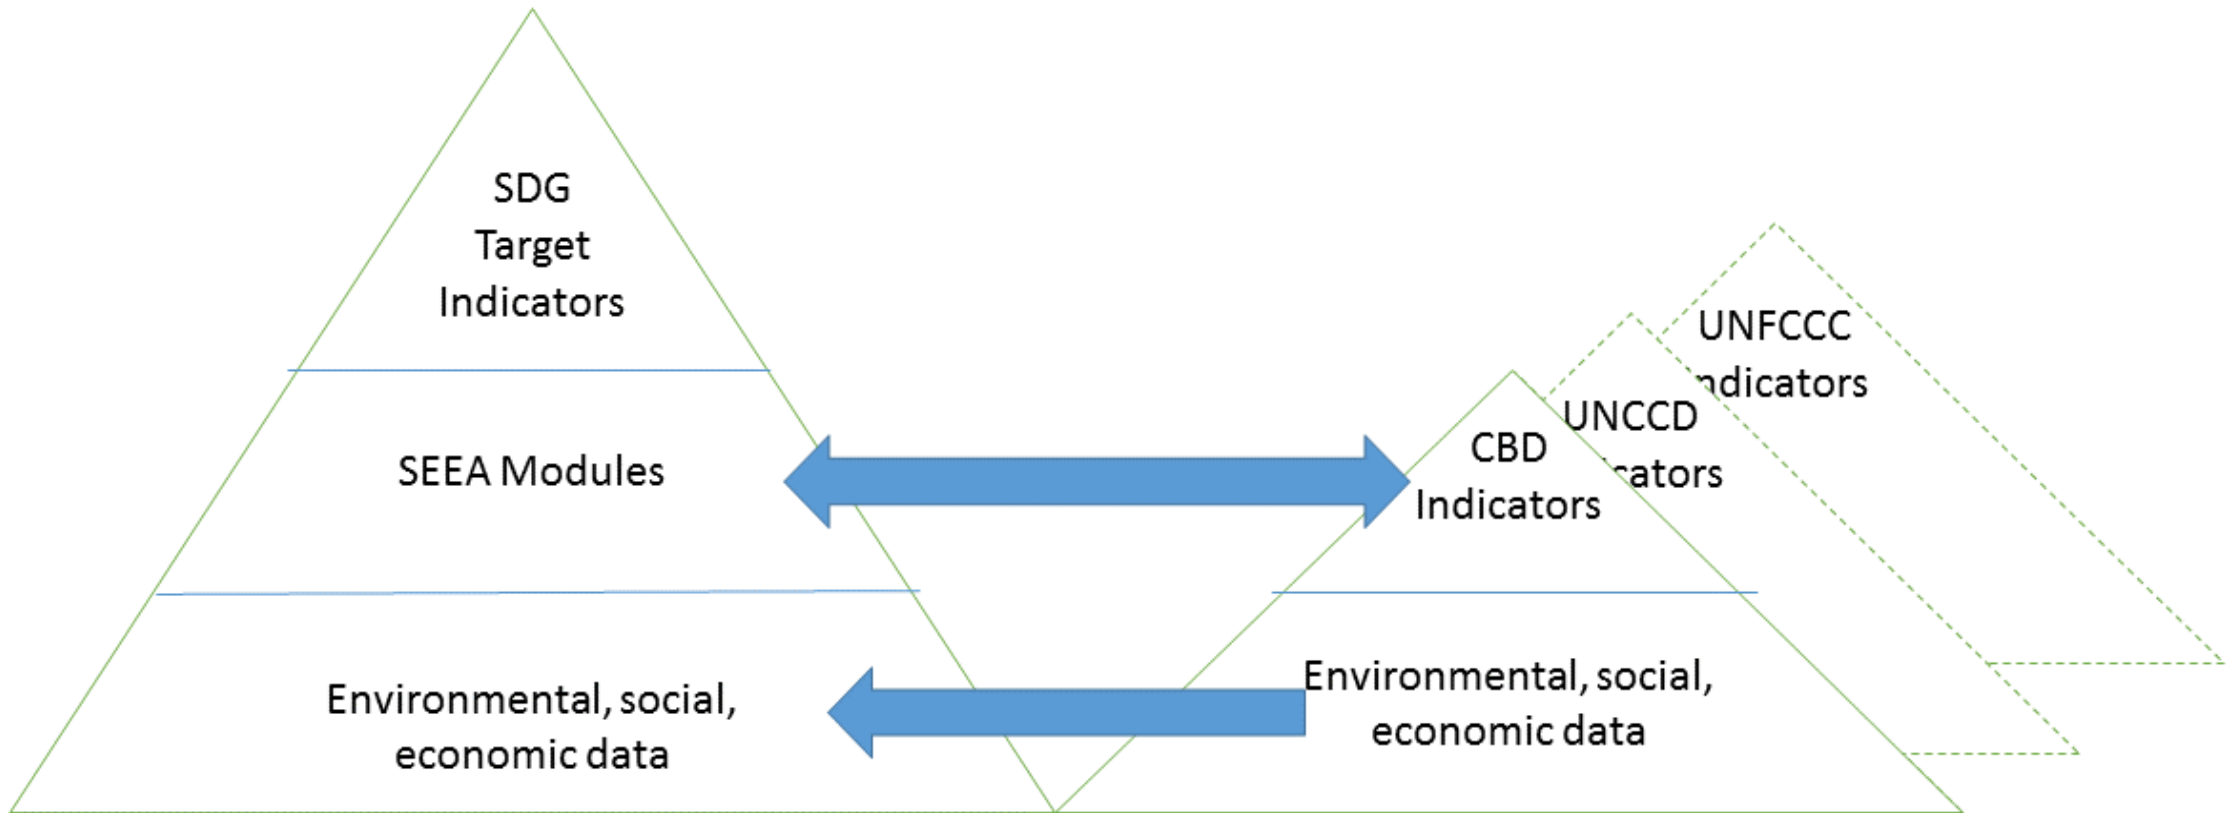

Rapid 'Expert' Assessment of Sets of Individual indicators

Relevant SEEA modules

- Land accounts – Physical measures
- Ecosystem extent accounts - Physical
- Ecosystem condition accounts - Physical
- Ecosystem services accounts (provisioning) – Physical or monetary
- Ecosystem services accounts (regulating and cultural) – Physical or monetary
- Physical environmental assets accounts (e.g., stocks of timber) – Physical or monetary
- Thematic biodiversity accounts – Physical

Structure of the analysis

Assign 'Full', 'Partial' or 'None' possibilities for alignment with SEEA

Results by Global Indicator Initiative (314 Indicators)

SEEA to SDG Indicators Matches

■ Full ■ Partial ■ None

SEEA to Aichi Target Indicators Matches

■ Full ■ Partial ■ None

SEEA to UNCCD Target Indicators Matches

■ Full ■ Partial ■ None

SEEA to UNFCCC Target Indicators Matches

■ Full ■ Partial ■ None

SEEA to BIP Indicators Matches

■ Full ■ Partial ■ None

SEEA to IPBES Indicators Matches

■ Full ■ Partial ■ None

SEEA to Ramsar Report Matches

■ Full ■ Partial ■ None

Aggregated Results

41 'Full Possibilities' for generation via the SEEA

- Indicators relevant to other initiatives:

SDG 15.3.1 – Proportion of degraded land (CBD; UNFCCC; UNCCD and Ramsar)

SDG 6.6.1 – Change in extent of water related ecosystems (CBD; Ramsar; BIP and IPBES)

SDG 15.1.1 – Proportion of forest area (CBD; UNFCCC; BIP and IPBES)

SDG 15.9.1 – Progress towards national targets in accordance with Aichi Target 2 (CBD)

SDG 6.3.1 – Proportion of waste water safely treated (Ramsar)

SDG 15.2.1 – Progress towards sustainable forest management (CBD and UNFCCC)

AT 5.5.2 – Natural habitat extent (UNFCCC)

AT 5.5.3 – Wetland extent (IPBES and Ramsar)

Wider analytical interests

Accounts, Gaps and Mainstreaming Opportunities

- Land cover / ecosystem extent accounts a priority
- Key Aichi Target indicator gaps relating to:
 - Trends in extent and condition of vulnerable ecosystems
 - Trends in restoration of ecosystems providing essential services
 - Trends in ecosystem resilience
- Opportunities for ecosystem mainstreaming indicators:
 - Reducing poverty (SDG Targets 1.4 and 1.5)
 - Ending hunger (SDG Targets 2.1, 2.3 and 2.4)
 - Building resilient (green) infrastructure (SDG Targets 9.1 and 9.4)

Accounts to output indicator matches

Next Steps

Assessment of Global Indicators

- Following the meeting we would be grateful if you could complete the comment form for the report circulated and return this by 22nd March

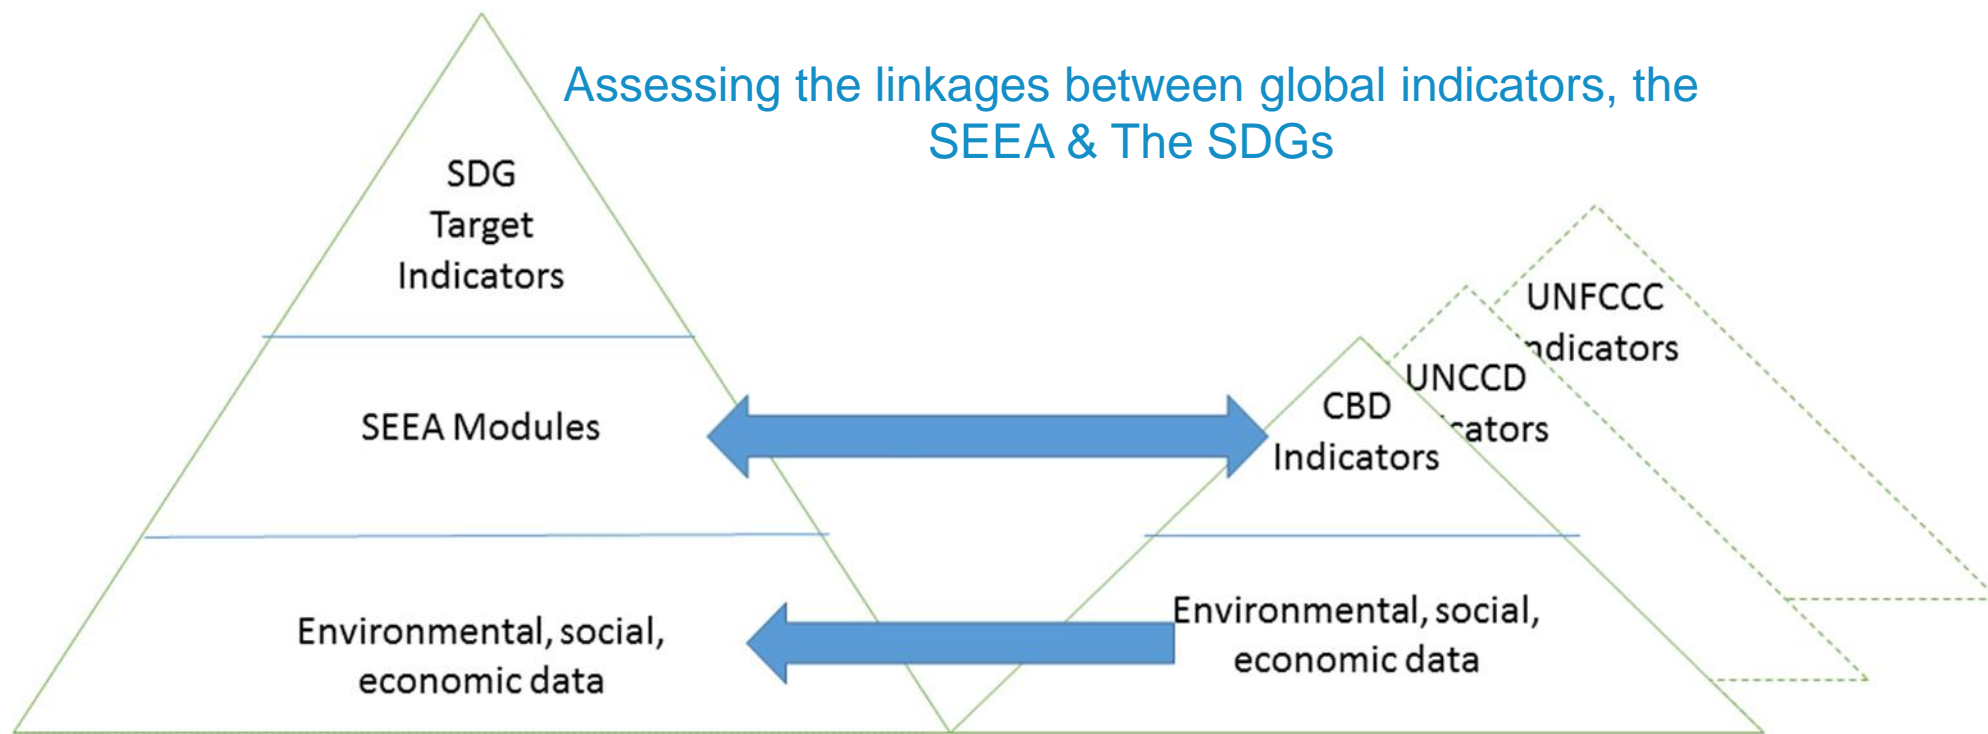

Develop methodology for indicators (this meeting)

- Develop a SEEA based methodology for SDG 6.6.1 and 15.3.1
- Develop a SEEA based methodology for 2 other indicators (Post 2020 focus)

Test Methodology with Pilot Countries (2019 / 2020)

- Refine methodology
- Capture lessons learned

Assessing the linkages between global indicators, the
SEEA & The SDGs

THANK YOU!
