Agenda and objectives of the workshop

Marko Javorsek

United Nations Statistics Division

Regional Training Workshop on the Production of SEEA-Energy Accounts and Use of Energy Information for Policy

17-20 December 2019, Almaty, Kazakhstan

United Nations

SEEA-Energy Training Programme – blended approach

1. Online phase:

- > 6 self-paced modules “In Depth Training on Energy Accounting” through the UNSD e-Learning Platform:
<https://elearning-cms.unstats.un.org/>
- > 3 live webinars. Presentations and recordings at:
<https://seea.un.org/news/regional-training-programme-production-seea-energy-accounts-and-use-energy-information-policy>

2. In-person phase

- > Almaty, Kazakhstan, 17-20 December 2019

3. Follow-up activities

Objectives of the Programme

- Build **knowledge and skills** on the compilation of SEEA-Energy accounts;
- Develop understanding and skills on the **use of energy balances for creation of energy accounts**, including through using an energy-balances-to-accounts tool provided by UNSD;
- Develop appreciation of the various **uses of energy accounts, balances and statistics** by strengthening policy-data links, including to inform SDG progress, national energy sector plans, and national development programmes;
- **Share experiences** and learn from other colleagues; and
- Establish **draft national strategic plans** for the development and use of energy accounts, balances and statistics.

Agenda overview

Day 1:

- Sharing of experiences
- Energy statistics
- Energy physical flow accounts

Day 2:

- Energy balance and moving from balances to accounts
- Air emission accounts

Day 3:

- Energy asset accounts
- Energy statistics, balances and accounts for energy policy

Day 4:

- Formulation of national plans

THANK YOU
