COP 14

Side Event

Natural Capital Accounting to Support the Post-2020 Biodiversity Framework

Over 80 countries worldwide have implemented natural capital accounts.

This side event will explore the role natural capital accounting can play in the post-2020 biodiversity agenda with examples of how it has supported effective policy responses to threats to biodiversity in both developed and developing countries.

Speakers

Neville Ash (Chair)
UNEP-WCMC

Alessandra Alfieri
United Nations Statistics Division

Kristal Maze
SANBI, South Africa
