Training programme in support of implementation of the SEEA in countries

UNSD
10th UNCEEA Meeting
Background

- Training programme
- Activities thus far
- Proposed future plans
- Some other activities in support of implementation
- Issues for discussion
Mandate and demand for training

- International Conference on “Global Implementation programme for the SEEA” in 2013
- 8th UNCEEA meeting
- Need articulated by countries in multiple fora (Statistical commission, UNCEEA, other regional meetings)
Developing the SEEA training course

- UNSD and GIZ
- Three main goals:
  - Building capacity in countries
  - Increase pool of experts
  - Standardized training materials
- Blended learning format
  - Online phase
  - In person phase
  - Follow up phase
- Reviewed by SEEA CF Tech Committee and others
Activities thus far

- Course has been run 3 times in collaboration with GIZ and UN regional commissions
  - New York (Global, July 2014)
  - Addis Ababa (ECA, February 2015)
  - Santiago (ECLAC, July 2015)
- Supported by experts from Statistics Canada, Statistics Denmark and Statistics Netherlands
Future plans

✧ Course in ESCAP region (late 2015)
✧ Expand available courses
  • Guidance of SEEA CF TC; consultations as relevant
  • Water (building upon IRWS, SEEA-Water and compilation guidelines on water accounts and statistics)
  • Energy (building upon IRES, SEEA-Energy)
  • Ecosystems (training material developed as part of ANCA project)
  • Shorter intro course (aimed at policy makers)
✧ New SEEA website
Other activities

- Development account (DA) projects
  - UNSD (Asia and Africa-4 countries total)
  - ECLAC & ESCAP (10 countries)
  - ESCAP Pacific (4 countries)

- Coordination

- Aims: national plans and increased capacity
Issues for discussion

✦ Do you agree with the suggested way forward for expanding the training of trainers programme?

✦ How can the UNCEEA support the training of trainers programme?
Thank you
